The Ramble
CANNING VALE WA 6155

Dear Jodie

I refer to the recent one year follow up review for the teaching quality and student achievement and progress domains identified during Canning Vale Education Support Centre's Public School Review conducted in Term 3, 2023.

I am advised that Kim McCollum, Director, Public School Review and Gwen Evans, Principal, Meadow Springs Education Support Centre, met with you, your deputy principal, and members of staff, to consider the extent to which the school has made sufficient and sustainable progress against the report's recommendations for the domains listed above.

I am informed that the school has taken steps to implement a whole-school literacy program which has been embraced by staff across the school. I am also informed that the school has developed a clear assessment schedule and processes for monitoring student achievement within the Autism Early Intervention Program. However, the advice received also confirms that the school has not yet demonstrated sufficient and sustainable progress towards meeting the Standard in relation to all recommendations for both domains.

Given this, I will be convening a next steps meeting to discuss the targeted support available to assist your school. This will consider input from Sue Cuneo, Director of Education, South Metropolitan Education Region; Kim McCollum, Director, Public School Review; and Stuart Percival, Assistant Executive Director, Service Delivery.

Following the meeting, Sue Cuneo will contact you to discuss the range of targeted support identified as necessary for Canning Vale Education Support Centre to achieve the desired progress. Improvement milestones will be a required feature of the school's planning.

The next review of the teaching quality and student achievement and progress domains is scheduled for Term 3, 2025. Should the school meet the Standard for these domains, a full Public School Review, inclusive of all domains, is to be scheduled for 2026.

I look forward to learning of the school's progress towards its improvements over the next 12 months.

Yours sincerely

Steve Watson
Deputy Director General, Schools
