Dear Jodie

I refer to the second follow up review for the teaching quality and student achievement and progress domains following Canning Vale Education Support Centre's Public School Review in Term 3, 2023.

I am advised that Kim McCollum, Director, Public School Review and Gwen Evans, Principal, Meadow Springs Education Support Centre, met with you, your deputy principal, and members of staff, to consider the extent to which the school has made sufficient and sustainable progress against the report's recommendations for the domains listed above.

The advice received confirms the school has demonstrated sufficient and sustainable progress towards meeting the Standard in relation to the recommendations in each domain.

I am informed that the school has implemented a reading and mathematics program and has engaged in professional learning through the Quality Teaching Strategy lead school to progress the development of agreed instructional practices guided by the Teaching for Impact statement.

The review team also noted the enthusiasm of staff in the implementation of peer observation and acknowledged the work undertaken by the school to collect a range of data to determine students' progress in literacy and numeracy.

Canning Vale Education Support Centre is to be congratulated for its professional commitment by first, noting the area for improvement and second, implementing strategies that have resulted in the improvements desired.

You will receive formal notification of your school's next Public School Review, inclusive of all domains, in the 2 terms leading up to your review. This notification will be provided in 2026.

I wish you and the staff continued success in your endeavours to provide high quality education for your students.

Yours sincerely
